Q. Should the CLIN for an item include hardware, delivery, installation and training?
A. Hardware delivery will be made to each office. Installation and training will be done at the NM00 site which will then advise the field offices on installation and training.

Q. Will possible future procurements under 3.2.4-32 require additional onsite training?
A. Under those as yet undetermined requirements, the previous question applies.

Q. Is all in-wall data cabling in place or will the contactor be responsible for cable drops?
A. Data cabling is in place.

Q. The Viewstation SP or equivalent is meant to be integrated into an existing cabinet/system?
A. Yes. Each office has a conference room with Video/TV System.

Q. Are these cabinets/systems standardized? If so, are drawings available?
A. Each office is different, no drawing are not available.

Q. We would like to complete delivery on an accelerated schedule, less than 30 days, experience has shown that this will be primarily customer driven. Is the customer prepared to support an accelerated schedule?
A. Yes.

Q. Is the ability to display laptop video to conference participants required on standalone units (VSX 3000) as well as integrated codecs (Viewstation SP)?
A. Yes

Q: The 13 conference room systems are specified to be Viewstation SP or equal. The Viewstation SP is no longer in production...do you have another model you wished to reference? Is the Polycom VSX 7000 an acceptable replacement?
A. The model that would be more appropriate would be the Viewstation FX.

Q. The MGC-50 has many options...dual power supplies, continuous presence, click to view, Unified conferencing, etc. Also, many levels of warranty are offered. Could you please be more specific on the MCU requirements?
A. Continuing presence, Unified Conferencing, must be able to see all connections (12)- can quote both software and hardware CP. Minimum of 3 year warranty w/on-site response w/in 48hours.

Q. “Ability to integrate with existing A/V equipment" is a requirement. Do you have a list of which equipment is to be integrated? Or would a general statement that the systems will be able to be integrated if the existing A/V equipment operates with input/output specifications that the VTC codec operates with?
A. The general Statement would be more appropriate. The existing equipment for conference room would be a TV and Projector/Projection system with IP network capability. The Manager's desk would be basically a Laptop or Desktop computer.

Q. Is installation only required at the Renton WA facility?
A. Yes the installation would be at the Renton Facility. There are three offices co-located at the Renton facility, only one will need to be installed with local computer specialists attending in order to provide instruction to the other field offices.

Q. 1-year technical support is required. Does this mean on-site response within 48 hrs? Please clarify.
A. On-site response within 48 hours if Help desk support is unable to fix the problem.

Q. What type of Maintenance is needed for the MGC? - Basic, Premier, or Premier Plus?
A. Can quote any or all options - but we would prefer premier plus

Q. Is a redundant power supply needed?
A. No

Q. Should future port expansion be considered?
A. It is not a requirement of the SOW

Q. You state "Dual Monitor Capability" Do you want us to quote you monitors and carts?
A. No

Q. Able to integrate with existing audio-visual equipment, i.e. LCD, projector, etc. I take it you are referring to the Conference Room Units only, correct?
A. Yes

Q.. Do you want the desktop systems (VSX 3000 or the like) and the Conference Room Systems to have the capabilities to allow for PC collaboration?
A. Yes

Q. You want an MCU, do you want a Gateway to allow your systems to get out from IP world to the ISDN world?
A. No

Q. I have the specifications that are listed on the above mentioned RFQ, however I had a quick question on the MGC-50. Will this require an audio card as well to support 16 users?
A. Yes

Q. Do you require monitors or carts for the conference room systems? If so what size and quantities?
A. No.

Q. Is AES preferred of required on the Polycom MGC?
A. Yes

Q. Do you need PC presentation from each conferencing unit, Desktop and Room system?
A. Yes to both.

Q. Do you currently have or do you need a H.323 gatekeeper software package to support the network video traffic? If you do already have one please define?
A. No, and don't Know. Do not have one.

Q. If you need a H.323 gatekeeper package will the gov't provide a windows server?
A. Should not need one.

Q. The RFP states duel monitor capability will dual monitor emulation (Two pictures on one screen) suffice?
A. Yes

Q. Does the government require the contractor to provide an h.323 dial plan for your network?
A. No

Q. Will the government provide the contractor with all the network information (IP address etc.)?
A. Yes, if necessary with the understanding that it is confidential information and not to be released to anyone.

Q. Do you require multiple screen layouts (Continuous Presence) on the MGC 50?
A. Yes
